## About OiXi

OiXi helps create a quality and comfortable life  
with great flavors between each and every breath

OiXi means the pursuit of a healthier and more enjoyable lifestyle.  
We have integrated OiXi's beliefs into every part of your life  
through a series of e-cigarette products back by comprehensive customer service.  
Instill moments with comfort and great flavor  
to help you relax  
and release you from restrictions.

OiXi is a new high-end e-cigarette brand from Japan's Kaousei Co., Ltd., headquartered in Minato-ku, Tokyo, Japan. OiXi upholds its philosophy of respecting nature, pursuing health, and apply science. It is committed to providing practical and feasible means to reduce harm from smoking.

## International collaboration and technical support

OiXi produces more than e-cigarettes and related products; it creates a unique experience that continuously improves user satisfaction. We consider R&D, safety, quality, and experience as the foundation for our products and development. We employ cutting-edge technology, fully utilize our manufacturing advantages, and promote scientific research and technological innovation to constantly reset the bar for industry standards.

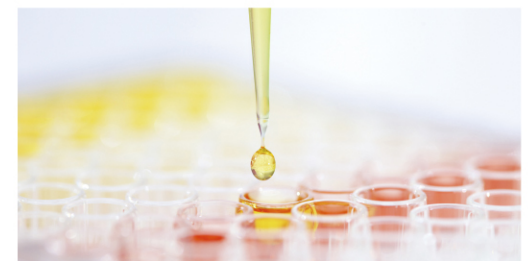

In 2021, OiXi and ITHRRC formally established a strategic partnership, which symbolizes that OiXi has not only established independent research and development capabilities for its products and technologies, but also gained even more international support in technology upgrades and plasticity in harm reduction.

### ITHRRC

The ITHRRC (International Tobacco Harm Reduction Research Center) was established in 2001 to focus on researching auxiliary technologies, processes, and products related to the tobacco production and processing processes. The ITHRRC's research covers the complete process, from tobacco seed selection, planting to smoke generation, formula development, and inspections related to cigarette production.

The ITHRRC has focused on the R&D of products and technologies to reduce harm from tobacco consumption in recent years.

The ITHRRC looks to respect nature and seeks to find effective means of reducing harm to billions of tobacco consumers worldwide.

## Product Series

OiXi-HWB Heating Without Burning Series

OiXi Change Cartridge Atomization Series

People yearn for beauty as they pursue it,  
because beauty has never been defined, it is difficult to reproduce,  
but when you are immersed in a cigarette, a taste of sweet,  
every pore in your body seems to tell you that,  
true, beauty can be frozen in time.

# HWB Heating Without Burning Equipment

## Warning:

It is forbidden to sell to minors.

(For details, please refer to the laws and regulations of each country)

## Technological designs

- Pure matte designs, smooth lines, refreshing simple, reliable, and grandeur

## Type-C port

- Fast charging, reliable and adaptable

## Long-life

- Large 900mAh battery
- Super long battery life, durable

## Smart color matching

- Six main colors
- Simple - low-key - versatile - personally tailored
- Makes choosing a lot easier Adaptable for many different scenarios

## Smart temperature control

- Four adjustable temperature levels, manages suction for every breath
- Perfectly caters to your personal needs
- Enjoy every breath, fully controllable

## Small and elegant

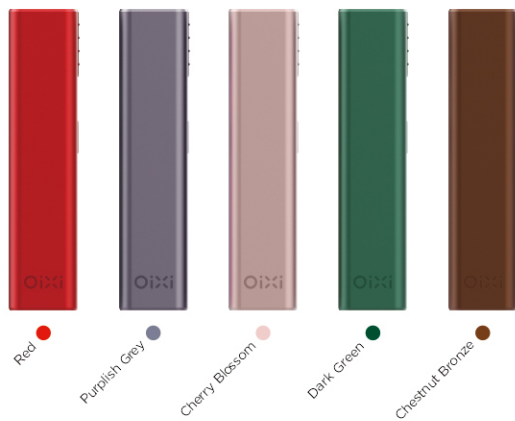

- A compact body that doesn't take up space
- Easy to carry, bring it with you on any trip

OiXi-HWB Heating without Burning Equipment adopts an anodized aluminum alloy that allows for a simple, elegant, and compact body that can be customized with colors that aren't flashy. Both great for health and appearance. Whether for yourself or someone else, it will fit anyone's taste.

HWB: Heating Without Burning.

## HWB Solid Atomizer Rod

The real reason why people are concerned with taste and become enticed is that it can't be seen or touched, but when you close your eyes, aromas are the only beauty that can be perceived.

### Warning:

Not for use by pregnant women, those with allergies, or minors; keep away from children.

### No tobacco

Derived from natural plant essences,  
reduces harm from tobacco

### No burning

280°C+ heating reduces harmful substances,  
care for yourself and the health of others

### Odorless

No tobacco odors, relieves addiction while  
being environmentally friendly

### Uniform compatibility

It is compatible with mainstream smoking  
tools, like IQOS, making it easier to find  
usable cartridges
